

"All technology migrations have uncertainty and risk associated with them. The service which ComputerLand provided to E.ON UK enabled this hardware refresh and operating system upgrade to be completed successfully, whilst minimising the disruption to our business community."

*Andrew Zimmerman, IS Procurement Manager
E.ON UK*

Start date: 2001-2002

- Benefits:**
- Reduced service costs with a standardised hardware and software platform and an upgrade to Windows XP
 - Reduced risk with E.ON's long term relationship with ComputerLand and their experience with other migration projects

- Services:**
- Project management
 - Desktop services - pre-delivery configuration, onsite installation, asset removal
 - Hardware refresh
 - Asset disposal
 - Software upgrade - migration to Windows XP

Replacing or upgrading 6,500 laptop and desktop PCs and migrating users from Windows 95 & NT4 to Windows XP, at some 30 sites across the UK.

E.ON

Following E.ON UK's development of a detailed technical design, ComputerLand* provided a fully managed migration service. This encompassed supply of 3,000 new PCs, upgrading and cleaning 3,500 existing desktop and laptop PCs, software imaging and onsite installations, as well as all associated logistics.
